Yuba	71%	52	56%	51

Source: Children Now analysis of data from the California Department of Health Services, Vital Statistics, "Trimester Mother First Accessed Prenatal Care by Mother's Nativity by County, 2002," unpublished data, accessed February 11, 2004.

Notes: Low number event (LNE) indicates that 10 or fewer U.S.-born or immigrant mothers received prenatal care in the first trimester. No ranking (N/R) indicates that there is insufficient data to rank the given county. These data exclude mothers for whom place of birth is unknown. The U.S.-born mothers category only includes those mothers born in the 50 states or District of Columbia; it does not include mothers born in Puerto Rico, Virgin Islands or other U.S. territories.
