^a All rates are per 100,000 female population.

^b Adjusted rates are adjusted to 2000 Standard U.S. Population.

^c Deaths with unknown age, region or race/ethnicity are reflected in the county total, but not in the individual categories. Category sums may not add up to county total.

^d Race/ethnicity data may be different from previously published data, due to minor state modifications in the way it provides race data starting in 2003.

* Rate not calculated for fewer than 5 deaths in this category.
