WHY: National Hand Washing Awareness Week is a national observance meant to show how important hand washing can be in reducing the spread of diseases like colds and flu. This San Diego event will illustrate a simple step everyone, young and old, can take to help reduce their chances of getting sick. Proper, thorough hand washing, done often, can help reduce the amount of germs on people’s hands, and that in turn can help reduce the spread of diseases like colds and the flu. The event is presented by HHS and the YMCA Childcare Service (a department of the YMCA of San Diego County).

Dr. Wilma Wooten will be available for interviews.
