* No rates calculated for fewer than 5 events nor for certain SRAs; see 'About the Data'. Interpret with caution rates calculated on fewer than 20 events. Rates calculated per 1,000 births for birth rates and infant mortality rates, and per 100,000 population for death rates. Rates are not age-adjusted. Totals for Race/Ethnicity and Age Group differ due to deaths in which age could not be determined. The sum of Race/Ethnicity or Age Groups may be greater than Overall due to rounding up. The sum of SRAs may be greater than the HHSA Region, while the sum of HHSA Regions is likely to be less than the County totals; see 'About the Data'. 'HHSA Regions' are not the same as 'Regions' referred to in the appendix; see 'About the Data'.

65+	0	-	1	*	10	3.3

* No rates calculated for fewer than 5 events nor for certain SRAs; see 'About the Data'. Interpret with caution rates calculated on fewer than 20 events. Rates calculated per 1,000 births for birth rates and infant mortality rates, and per 100,000 population for death rates. Rates are not age-adjusted.

Totals for Race/Ethnicity and Age Group differ due to deaths in which age could not be determined.

The sum of Race/Ethnicity or Age Groups may be greater than Overall due to rounding up.

The sum of SRAs may be greater than the HHSA Region, while the sum of HHSA Regions is likely to be less than the County totals; see 'About the Data'. 'HHSA Regions' are not the same as 'Regions' referred to in the appendix; see 'About the Data'.

65+	25	*	163	319.5	855	280.1

* No rates calculated for fewer than 5 events nor for certain SRAs; see 'About the Data'. Interpret with caution rates calculated on fewer than 20 events. Rates calculated per 1,000 births for birth rates and infant mortality rates, and per 100,000 population for death rates. Rates are not age-adjusted.

Totals for Race/Ethnicity and Age Group differ due to deaths in which age could not be determined.

The sum of Race/Ethnicity or Age Groups may be greater than Overall due to rounding up.

The sum of SRAs may be greater than the HHSA Region, while the sum of HHSA Regions is likely to be less than the County totals; see 'About the Data'. 'HHSA Regions' are not the same as 'Regions' referred to in the appendix; see 'About the Data'.

* No rates calculated for fewer than 5 events nor for certain SRAs; see 'About the Data'. Interpret with caution rates calculated on fewer than 20 events. Rates calculated per 1,000 births for birth rates and infant mortality rates, and per 100,000 population for death rates. Rates are not age-adjusted.

Totals for Race/Ethnicity and Age Group differ due to deaths in which age could not be determined.

The sum of Race/Ethnicity or Age Groups may be greater than Overall due to rounding up.

The sum of SRAs may be greater than the HHSA Region, while the sum of HHSA Regions is likely to be less than the County totals; see 'About the Data'. 'HHSA Regions' are not the same as 'Regions' referred to in the appendix; see 'About the Data'.

* No rates calculated for fewer than 5 events nor for certain SRAs; see 'About the Data'. Interpret with caution rates calculated on fewer than 20 events. Rates calculated per 1,000 births for birth rates and infant mortality rates, and per 100,000 population for death rates. Rates are not age-adjusted.

Totals for Race/Ethnicity and Age Group differ due to deaths in which age could not be determined.

The sum of Race/Ethnicity or Age Groups may be greater than Overall due to rounding up.

The sum of SRAs may be greater than the HHSA Region, while the sum of HHSA Regions is likely to be less than the County totals; see 'About the Data'. 'HHSA Regions' are not the same as 'Regions' referred to in the appendix; see 'About the Data'.
