a Healthy People 2010 (HP 2010) National Objective has not been established.
b National Objective is based on both underlying and contributing cause of death which requires use of multiple cause of death files. California's data exclude multiple/contributing causes of death.
c National rate is not comparable to California due to rate calculation methods.
d Prevalence data were not available in all California counties to evaluate HP 2010 National Objective of no more than 3 percent testing positive in the population aged 15 to 24 years.
dsu Data do not meet the criteria for statistical reliability, data quality, or confidentiality. Centers for Disease Control and Prevention (CDCP) website at <http://wonder.cdc.gov/data2010/>. Accessed March 2010.
